# Golden Berries.

---

Golden berries are bright, orange-colored fruits that are closely related to the tomatillo.

Like tomatillos, they are wrapped in a papery husk called a calyx that must be removed before eating

Golden berries are also known as Inca berry, Peruvian groundcherry, Poha berry, Husk cherry and Cape gooseberry.

# Golden Berries.

- Plastic box located in a corrugated master tray.
- Net weight per master tray: 3,6 kg
- Net weight per plastic box unit: 300 gr
- Quantity per master tray: 12 plastic box
- Quantity per air pallet master trays: 100 trays
- Quantity plastic box per pallet: 1.200 plastic boxes

# Sweet Cucumber.

---

Lemon cucumbers are a small, spherical to oval-shaped fruit. Although the skin of the fruit is a light green it will turn a golden yellow when the fruit becomes ripe.

Fruit skin is thin and tender with some striping and mottling. The inner flesh of this fruit is similar to traditional cucumber, sweet taste with a cool, crisp texture.

Lemon cucumbers are believed to have originated in India or the Middle-East in the 16th century.

# Sweet Cucumber.

## Product information:

- Scientific Name: Solanum muricatum
- Origin: Ecuador
- Transport: Air freight
- Packaging: Cardboard boxes
- Season: All year long

## Product Presentation:

- Net Weight: 3 kg per tray
- Gross Weight: 3,35 kg per tray
- Trays/Pallet: 150

# Red Dragon Fruit.

---

Dragon fruit grows on the Hylocereus cactus, also known as the Honolulu queen, whose flowers only open at night. It goes by many names, including pitaya, pitahaya, and strawberry pear.

Dragon fruit may look exotic, but its flavors are similar to other fruits. Its taste has been described as a slightly sweet cross between a kiwi and a pear.

# Peruvian Ginger.

---

Known in Peru as kion, this food was brought to the country in the late eighteenth century, arriving from its native China. In Peru, it is produced in the Central Jungle, mainly in the Junín region, where the best ecological conditions can be found for its cultivation. It is very similar to turmeric and is characterized by being very aromatic, with a bitter, spicy flavor and light yellow color inside.

# Peruvian Ginger
